AMONG THE PUGS.

O'Rourke will arrange a twenty-round contest between George Dixon and Johnny Griffin. Tommy Ryan and George Green had better get together. This long distance telephone business is getting very tire-

Kld McCoy will be very much sought after by the different matchmakers for the purpose of having him meet Dan Creedon in a 20 or 25-round contest. Absolutely if the Birmingham club. of England, is going to put up \$15,000 expecting to see Mitchell make any sort of fight against Fitz it is walking and

talking in its sleep.
Boxing bouts are being held every week in New York, and there is no op-position. Let Fitz and Corbett talk about meeting there and there will be a big attempt to repeal the Horton law. O'Donnell claims that he can give Corbett a good stiff argument for ten or fifteen rounds, but O'Donnell thought the same thing before he met Maher, and everybody knows how long O'Don-nell did last.

neil did last.
Sharkey is confident of his ability to whip Maher. But Sharkey was always confident. The deluded young man even now asserts that he "had Fitzsimmons going" in the Pavillon affair.
—San Francisco Report.

When Mitchell was in this country, immediately after his knockout by Corbett, Fitz wanted very badly to try the task of knocking Mitchell out in four rounds; he offered to give him some-thing if he would try to stay that number, but Charles wanted to go home and think awhile, and besides he said

The genuine feather-weights are getting to be few in numbers. For several years past the weight limit in this class has been generally recognized as 122 two and Reitz and Hallman are good pounds, and George Dixon, Solly Smith enough second basemen for anybody. and "Australian" Billy Murphy seem to McPhee is the best of the Irish reprebe about the only ones who can train, or, rather, are willing to get to that weight and do battle.

A Splendid Man. Husband-Do you think that doctor you have is doing you any good?

Wife-Indeed he is. He has just told me that nothing but a trip to Europe would save me.-Truth

That the Base Ball Situation Is Not Very

IRWIN TO HAYE SMOOTH SAILING

Exceptions Are Taken to Recent Reports of Newspaper Opposition and That the Grounds Are Inaccessible. Cauadian League Is Not to Cut a Very Big Figure and Transportation Facilities Will Be First-Class.

article of recent date concerning the and once and for all, the idea that the Canadian league "cuts any ice" in this town is wrong. Not one in twenty of the base ball patrons here look on it as opposition, and the people have been too long used to seeing good Eastern league base ball to pay to see the antiquated thirty or forty dollar a month article served up by the Canadian league. So far as sentiment is concerned it makes very little difference here, and at any rate as at present composed five-sixths of the players in the Canadian league are citizens of the United States.

The new grounds are not two miles from the centre of the city, as has been stated, nor are they as far away either by distance or time as the oid grounds, the chief difference being, however, that the new grounds are accessible only by boat. The Ferry company runs service by which patrons can easily be in their seats in the grand stand within fifteen minutes after leaving the centre of the city, which is better than one could count on doing last season at the old grounds; and a boat will be in able of carrying 1800 people, which is as much as twenty cars could carry, while two or three cars was the limit last seaon on any day for handling the crowd at the close of a game. The fare to the island is the same as t o the old grounds from the centre of the city where nine-tenths of the patrons start from, and the location of the island oval is much pleasanter than the Don grounds and minus the foul smelling

of the grand stand over the Don. The opinion of the people here is not that Irwin has made a mistake in transferring to the Island but everyone seems to think it was a wonderfully good stroke of business, and with the judicious advertising the ferry company is sure to give it, it will be a great success financially and otherwise. The prospects are splendid here for a good paying season and it is hoped that everyone else has "stacked up against" no harder game than has Irwin. If such is the case everything is lovely in the league. By the move to the Island grounds and compared with last season Irwin opens his gates with as much money saved on ground rent and help alone, as 15,000 paid admissions would

abroad. Irwin has again and again denied that Toronto is a "farm" for Washington or any other club and it hardly seems fair to make guesses founded on nothing, that he is misrepresenting the case. The farming system has had its \$5,000 deficit, does it sound like common sense to think that Irwin would run his

day in Toronto and if the result was a head into such a noose? Toronto hopes things are as bright and people as well satisfied with their home team and manager's efforts in every town in the league as are the base ball people of

The Tribune is gratified to receive such an encouraging report from the Canadian city. If the situation in Toronto, however, is a s hopeful as indi-cated in the foregoing the Toronto papers must have been a little more alert to deny the opinion current in the states that Irwin was going to have a hard row to hoe, that the Toronto sporting writers were arrayed against him and that a club was backed by Wagner of the Washington's. The Tribune article referred to was reproduced in the Toronto Globe without so much as a ine of explanation. Surely every Eastern league patron ought to be glad if things are favorable in the Canadian city if for no other reason than the selfish one that whatever success the Toronto club attains has its good effect on the whole league.

The Greeks were physically perfect and beautiful because they were healthy. man who suffers from ill - health cannot be

> manly. The woman who is sickly cannot be beautiful and womanly. Most all forms of ill-health have their inception in

disorders of the digestion. digestion is bad the blood becomes im-pure, and is imperfectly supplied with the food-elements that build up new and healthy tissues, and tear down, and carry away those that are inert and half-dead. The nerves are not rebuilt from day to day with new, vigorous, active fibers. Every organ, tissue, muscle and nerve in the body is half famished alleged stars of last season.

If, as has been said, the sporting ease in the category of human ills may be selves to help Irwin out, which might possibly be mid of one with the season the category of human ills may be until the body is man familished for healthy nutriment. Almost any disease in the category of human ills may be the result of this condition. Most frequently it is the most deadly of disorders other wasting disease. Again, it may be scrofula or some skin disease.

There is a sure preventive and remedy for these conditions and maladies. It is Dr. Pierce's Golden Medical Discovery. It corrects all disorders of the digestion. It restores the lost or failing appetite and invigorates the liver. It fills the arteries with the pure, rich, red blood of health. It builds new, firm flesh, healthy, active nerve fibers, and strong elastic muscles. It cures 98 per cent. of all cases of con-sumption, and wasting diseases. It cures nervous prostration. Druggists sell it.

The man who is too lazy or neglectful to take an occasional dose of medicine to ward off the evil effects of constipation deserves to die. And he will surely get his deserts, for constipation is the first cause of much sickness. Dr. Pierce's Pleasant Pellets cure constipation. They never gripe. One little "Pellet" is a gentle laxative, and two a mild cathartic. All good druggists sell them. No other pills are as good.
